# KNITTED VASE

---

Knitted Vase finally offers you the solution to the never ending search for the ideal vase. The Knitted Vase will adapt to the single beautiful rose or the bunch of wildflowers instead of the other way around. The flowers determine the shape and the flexible neck will seamlessly wrap itself around. Just like the snug fit of a finely knitted sweater. Thanks to the Rapid Manufacturing technique this vase of synthetic fibre will not drop a single stitch.

## Design Award

Knitted Vase was co-designed by Ilona Huvenaars and Willem Derks. Ilona designs from her intuition; Willem approaches his profession from a technical point of view. The powerful combination of both their disciplines immediately proved itself and was rewarded in the Knitted Vase. In 2008 the two received the first prize for it in the TNO Design Challenge.

PRODUCT NAME	Knitted Vase
DESIGNER	Ilona Huvenaars and Willem Derks
MATERIAL	Coated Nylon with Rapid Manufacturing technique
COLORS	White
DIMENSIONS	Small L 22 cm x W 12 cm Large L 35 cm x W 21 cm
